

OBJECTIVE

Aspiring Information Security Analyst transitioning into cybersecurity with a professional background in financial operations, process management, and cross-functional collaboration. Currently building a cybersecurity project portfolio focused on incident response, security awareness, policy governance, and human-centered security solutions.

EDUCATION

DAE Cybersecurity Program, Stamford, Connecticut

Cybersecurity | June 2026 – December 2026 (Expected)

Johnson & Wales University (JWU), Providence, Rhode Island

Bachelor of Science: Accounting Major Awarded May 2018

WORK EXPERIENCE

WCS Loan Operations Analyst — Citizens Financial Group (2021–2026)

Managed complex lending transactions from application through closing, coordinating due diligence, documentation, underwriting requirements, and cross-functional workflows across business partners. Maintained accuracy and process integrity while handling sensitive client and financial information, resolving documentation discrepancies, and supporting quality-control requirements. Managed high-volume pipelines and time-sensitive transactions while communicating across advisors, underwriters, internal operations teams, and other stakeholders. Contributed to process improvement and operational initiatives, including documentation and system-related changes, while supporting and training colleagues on established workflows.

Financial Ministry Accountant — Transformation Worship Center (2020–2021)

By monitoring and gathering constant financial information, I am able to incorporate ministry with my background of accounting. The composition of monthly, quarterly and annual statements are done so with the utilization of QuickBooks software. I am also responsible for receiving/counting weekly tithes and for maintaining invoice files.

PWM Staff Accountant — Citizens Financial Group (2019–2021)

By collectively receiving mid-level office requests, I am able to execute daily tasks for Trust Fees while assisting in various ad hoc projects for other departments. I delegate our fee liquidating, charging, and account characteristic requests to our back office team. I am tasked with the preparation of settlement and audit reports for numerous departments. Monthly, I am also entrusted with the duty of creating invoices, aged receivable letters, updating internal fund rates, and running the necessary EOM reports.

Associate Treasurer — Lincoln SDA Church (2017–2019)

By providing financial assistance to account for our religious community's tithes and offering, I am able to present fair and accurate information needed for taxation processing forms.

Sales Ambassador and Visual Merchandise Assistant — Banana Republic (2017–2019)

By servicing customers with the sales assistance needed in addition to aiding the visual department with a combination of trend and brand knowledge, I can implement the culture of the company.

TECHNICAL SKILLS

Cybersecurity: Security Awareness • Incident Response Fundamentals • Policy Governance • Digital Privacy • Phishing Analysis

Tools & Platforms: VirusTotal • Git/GitHub • Visual Studio Code • Monday.com • Figma/FigJam

Claim Marketing and Communications Summer Intern — Travelers Insurance (2017)

By working alongside my fellow colleagues, I participated in the creation advances of Claim content for the firm. I actively cohere with the modification of Claim materials, as well as verifying data to revise new and standing products. Also, I administered software techniques to organize new and revised Claim materials.

Technical Support Assistant (Student Assistant)— Johnson & Wales University (TSA) (2016 – 2017)

By being involved in the day to day processes, I learned the university's information technology structures and of its operations. I displayed and maintained prominent levels of interactive services with clientele that included alumni, faculty, and students. Through troubleshooting and detailed tasks, I became knowledgeable on the navigation of various technical programs and systems.

Tax Counselor for Elderly (TCE) - Volunteer Income Tax Assistance (VITA) (2015)

By providing a financial community service to low-income seniors in Providence, Rhode Island, I gained empathy, maturity and a greater understanding of the many ways I can use my education and my skill set to benefit an employer and my community.

Bank Teller — Windsor High School/ Windsor Federal Bank Program (2013 – 2014)

By working directly with the public and with bank leadership on a variety of outreach efforts, I gained strong customer service and interpersonal skills, as well as familiarity with many banking regulations.

Intern — BP Nordstrom Fashion Board Program (2012 – 2014)

By working closely with representatives from the advertising, marketing, merchandising and design teams, I was given the opportunity to engage in trend forecasting and other analytical exercises. These activities taught me the importance of planning and sales execution. I also learned how to be flexible and to course correct when predictions do not come to fruition.

Programming: Python • HTML/CSS • Command Line/CLI

Professional: Process Documentation • Quality Control • Cross-Functional Collaboration • Workflow Management
