

Employee UI & Feedback

Week 6 validation report

Employee-facing policy guidance, source visibility, and feedback capture

STATUS: COMPLETE

Week 6 focused on turning DeRexi’s policy-search capability into a usable employee experience. The interface now presents policy-grounded answers in plain language, shows the supporting policy, lets employees rate whether the response was helpful, and confirms that feedback was recorded.

POLICY ASSISTANT VALIDATION

RAS THIS HELPFUL?

☒ Yes

☐ No

DEREXI - POLICY ENGINE - JUST NOW

RESULT Policy-grounded employee guidance is visible and actionable. Both examples show a plain-language answer, a named supporting policy, and Yes/No helpfulness controls directly beneath the response.

FEEDBACK LOOP

S

✓

Thanks — your feedback is on record.

Feedback confirmation

After an employee selects a helpfulness response, DeRexi displays “Thanks - your feedback is on record.” The confirmation makes the feedback action visible to the user and closes the interaction loop.

01 ASK Employee submits a policy question.	02 ANSWER DeRexi returns grounded guidance.	03 REFERENCE Supporting policy stays visible.	04 RATE Employee records helpfulness.

Employee UI & Governance Validation - DeRexi Policy Pilot

30 Sep 2026

Governance Visibility

From employee questions to policy-owner action

The governance interface gives policy owners a consolidated view of policy activity, clarification needs, and incident work around the employee experience.

GOVERNANCE OVERVIEW

CLARIFICATION REQUESTS

Questions needing policy-owner judgment appear with status and Take/Resolve actions.

HEALTH AT A GLANCE

Policy activity is summarized through citations, clarification requests, incidents, and reviews due.

INCIDENT TRIAGE

WEEK 6 OUTCOME

DeRexi now has a connected employee-to-governance experience. Employees can receive policy guidance, inspect the supporting policy, and provide feedback; policy owners can monitor policy health, review clarification requests, and triage incidents. These screens validate the planned Week 6 Employee UI milestone and provide the handoff into Week 7.

Evidence note: screenshots validate the working UI states and visible feedback confirmation; they do not independently demonstrate the underlying database record created by the feedback action.
